

How to Deploy a Temperature Logger

Thanks for joining in, it's super simple! Let's go step by step:

1. **Pick a Spot:**

Choose a safe place **over 1 meter deep, away from boats**, and where you can securely tie the logger.

2. **Take a Picture:**

Take a picture of the logger **at the deployment site**, this helps track when and where it was placed.

 *Please share this with us!*

3. **Secure the Logger:**

Tie it firmly with a **knot**, then use the **cable tie** to keep it extra secure.

How to Return the Temperature Logger

Thanks for helping us collect valuable data! Here's how to send the logger back:

1. Take the logger out of the water:

Hold it in your hands or place it somewhere **safe** (like the pier) so it doesn't fall back in.

2. Remove the attachment:

Cut the **cable tie** and untie the **knot**.

3. Clean and document:

Wipe off any dirt so the **number on the logger is visible**, then **take a photo**.

 *Please share this with us!*

4. Pack it up

Put the logger, float, and rope into the **ziplock bag** and **seal it**.

5. Prepare for mailing

Place the ziplock bag into the **pre-addressed envelope** (already provided).

6. Send it back

- Go to posti.fi/lahttaminen or log into OmaPosti
- Select the package S
- enter the recipient's information: G. Hattich (ÅAU-Aurum-EMB)
- **select To a Posti outlet, enter the address:** Henrikinkatu 2, 20500 Turku
- 050 440 7380
- Click next- next and then **Use this free return code:**

Serial parcel or discount code

Apply Code

- **print the address card** and glue it onto the envelope,
- or write the Item code (Försändelsekod; like: CE8E24) on the parcel
- Drop it off at your **nearest post office**

Thank you!

We will get back to you with a plot of the data you collected as well as the data themselves.
